Alternative Programming

Welcome to Missing Links Programming

An inclusive school environment that blends ABA curriculum with Ontario School curriculum to provide an immersive and supported experience for our learners!

Foundations

Program Description

Alternative education programming with auxiliary learning options, using innovative methods that continue with categorized developmental structures in the domains of pre-academics, learning and attention, imitation, communication, social skills, and behaviour management.

Alternative Accommodations

A hybrid approach to group instruction with imbedded ABA principles. Strategies include prompting, reinforcement, and data based decision making.

Foundations

What is the focus

**Core
Concepts**

**Repetitive
Learning**

**Structured
Instruction**

Two Part Programming

Entry Level

Focuses on establishing learning skills and setting foundational goals in the domains of pre-academics, imitation, communication, social interaction and play, and behaviour

Extension Level

Focuses on expanding these domain based skills to develop independent learning skills for a smooth transition into a more structured and academic learning environment.

Domains of Learning

Curated curriculum to develop real life skills

Pre-academics, Learning, Attention

Compliance and learning at the table and carpet. Focus on individual and small group learning

Imitation

Imitation of actions with and without objects, imitation with sounds, gross and fine motor imitation

Behaviour and Self Management

Cooperation with peers during learning and transitions, compliance during daily routines. Develop self regulation strategies.

Domains of Learning

Curated curriculum to develop real life skills

Communication

Following directions and classroom instructions while developing communication skills to label and identify objects and people.

Social Interaction and Play

Develop play and social skills with peers and adults to build relationships.
